INSURANCE for mortality is still available, if you choose to purchase it. We will be providing a **FIRST BREEDING SEASON GUARANTEE**. Bulls selling for **\$3,000.00** or more will be covered 100% (minus \$2,000.00) by **SMITH FARMS and HUNTRODS RED ANGUS**. Breeding season is defined as the **90-day** period following turnout. The value of the injured bull, minus \$2,000.00, will be given as credit in next year's bull sale, or toward a replacement bull, if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should any injury occur, and prior to the bull being sold. All claims must be made by **September 1, 2017**. This is **not a mortality** insurance policy nor does it cover mismanagement or **neglect**.

Dear Angus Enthusiasts,

We, THANK YOU, for your interest and support of our operation. There is no better business to be involved in than one in which your customers are your friends. We are thankful for all of our friends and for every day that we can do what we do!!!

Smith Farm's progeny comes to you, backed by 27 years of in herd AI, attached to performance data, acquired from conception time thru the hanging rail. We count on "performance from the cow NOT the creep feeders." Our operation does not survive on show, but on function.

New this year is an offering of two-year old bulls that were used for clean-up within the Smith Farms Angus herd. They have been trich tested, clean, and, are ready to go to work.

We are often asked, "How are the bulls doing? Are they better than last year's?" We'll let you be the judge of that. However, there are some real favorites in the group that we feel are herd bull prospects, thick topped, deep and functional, that will leave behind a great set of females providing a long lasting impact on your bottom line.

Bull selection simplified.....Know your target markets..... Be it feeder calves, yearling, value based grids, or replacement heifers, that fit your operation. Decide which direction you need to take your operation knowing that your cows live and reproduce in your environment. Most of the time pounds are still what we have left in the end to carry us thru the tough times. This offering of bulls will add the pounds that you need!
